

REMEDATION AND REDEVELOPMENT (RR) NEWS FROM WISCONSIN DNR

September 15, 2005

SEPTEMBER RE NEWS IS ON THE WEB

The RR Program's quarterly newsletter, *Re News*, is available on the web at <http://dnr.wi.gov/org/aw/rr/archives/pubs/RR738.pdf>. Highlights include proposed changes to the NR 700 rule series and the Dry Cleaner Reimbursement Fund rules, a successful brownfield redevelopment in West Milwaukee, and a special section on the program's web information for cleaning up contaminated properties.

EPA'S BROWNFIELD JOB TRAINING GRANT DEADLINE EXTENDED

EPA has extended its deadline for submittal of Job Training Grant applications to **October 3**. These grants are intended prepare trainees for employment in the environmental field. For more information or to apply please see the Brownfields Grant web page at <http://www.epa.gov/brownfields/applicat.htm#jt>

REMEMBER THAT SAG APPLICATIONS ARE DUE OCTOBER 20

Don't forget that this year's Site Assessment Grant (SAG) applications are due on **October 20**. The current application form, instructions, training information and tips about site eligibility are on our SAG web page at <http://dnr.wi.gov/org/aw/rr/brownfields/sag.htm>. Local governments can use these grants to investigate environmental contamination and to prepare brownfield properties for cleanup and redevelopment.

COASTAL MANAGEMENT GRANTS ARE DUE NOVEMBER 4

Wisconsin's Coastal Management Program (WCMP) has \$1.5 million in grants to enhance, preserve, protect and restore resources in the state's coastal zone - all counties adjacent to Lakes Superior and Michigan. These grants may be applied toward investigation and cleanup of environmental contamination. Applications are due **November 4**. Grant workshops are ongoing; the last two are September 16 in Superior and September 21 in Milwaukee. For more information, please see the Coastal Management web page at http://www.doa.state.wi.us/pagesubtext_detail.asp?linksubcatid=250

DON'T FORGET ABOUT BROWNFIELDS 2005

You may still register for *Brownfields 2005, Reaching New Heights in Redevelopment*, the national forum on Brownfields cleanup, redevelopment and reuse, **November 2-4**, 2005 in Denver, Colorado. The conference is free and features interactive discussions, educational presentations, mobile workshops, and networking opportunities. For more information and to register, visit the conference web site at: <http://www.brownfields2005.org/en/index.aspx>.

FROM THE FEDS:

- The Center for Disease Control has released the "Third National Report on Human Exposure to Environmental Chemicals." The report is available at <http://www.cdc.gov/exposurereport/>.
- The Summer 2005 edition of "Cleanup News" is available at: <http://www.epa.gov/Compliance/resources/newsletters/cleanup/cleanup21.pdf>.
- Brownfields Insurance for Public Sector-Led Development Projects: Experience and Methods" is at <http://www.epa.gov/swerosps/bf/insurebf.htm#epares>.
- Comparison of Diffusion- and Pumped-Sampling Methods to Monitor Volatile Organic Compounds in Ground Water, Massachusetts Military Reservation, is at <http://pubs.usgs.gov/sir/2005/5010/>.

- Inventory of Sources and Environmental Releases of Dioxin-Like Compounds in the US is at <http://www.epa.gov/ncea/pdfs/dioxin/2k-update/>.
- UST Systems: Inspecting and Maintaining Sumps and Spill Buckets is at <http://www.epa.gov/swerust1/pubs/sumpmanl.htm>.
- EPA's "CLU-IN" web site has these materials:
 - The latest edition of the *Technology Innovation News Survey* with market information, reports on demonstrations, feasibility studies and research is at <http://www.clu-in.org/products/tins/>.
 - The July 2005 edition of "Technology News & Trends" is at <http://www.clu-in.org/products/newsletters/tnandt/view.cfm?issue=current.cfm>.
 - Abstracts of Remediation Case Studies, Volume 9 is at <http://clu-in.org/techpubs.htm>.
 - Revisions to the arsenic, chromium VI, and perchlorate sections of "Contaminant Focus" are at <http://clu-in.org/contaminantfocus>.

TRAINING FROM THE FEDS:

On-line training programs are also available through <http://clu-in.org/studio>, including these programs:

- September 20, What's New with In Situ Chemical Oxidation?
- September 22, Characterization and Remediation of Soils at Closed Small Arms Firing Ranges
- October 6, Permeable Reactive Barriers: Lessons Learned and New Directions
- October 20, Strategies for Monitoring Performance of DNAPL Source Zone Remedies
